JOB OPPORTUNITY

Research position at NoctuRNA Therapeutics!

Are you passionate about pioneering breakthroughs in RNA-based treatments? NoctuRNA is seeking talented postdoctoral researchers with a PhD in Molecular and Cellular Biology and deep expertise in RNA biology to join our team!

About NoctuRNA

NoctuRNA Therapeutics is a pioneering biotechnology company dedicated to transforming healthcare through cutting-edge RNA-based technologies. Our core mission is the development of innovative circular RNA molecules aimed at addressing a wide spectrum of incurable diseases, ranging from viral infectious diseases to muscular dystrophies and neurodegenerative disorders.

Founded in 2022, NoctuRNA emerged as a spin-off of Pompeu Fabra University (UPF), stemming from the distinguished Molecular Virology group led by Dr. Juana Díez. Situated within the Barcelona Science Park (PCB), our laboratory enjoys a strategic location within one of the largest hubs of biomedical research in southern Europe.

Job description

Position: Research Scientist

We are seeking a motivated life-science researcher to contribute to the NoctuRNAs R&D projects.

Main tasks:

- Cell and molecular biology analyses (cell culture, cloning, qPCR, Sanger sequencing, western blot, immunoprecipitation, RNA-seq, DNA and RNA extraction...)
- Testing the effectiveness of circular RNAs in cell culture and in vivo models
- Collaborate with multidisciplinary teams on preclinical and clinical programs.
- Analyze data and contribute to scientific publications and project applications.

Requirements:

- PhD in biology, biotechnology or a related life-science discipline
- Experience in RNA biology and proficiency in molecular and cell biology techniques
- Highly motivated and adaptable, with a strong inclination toward learning new techniques
- Organized, proactive and capable of managing multiple projects and deadlines
- Team player with the ability to collaborate effectively in a dynamic research environment.

Valuable:

- Experience in viral infections or neuromuscular diseases
- Laboratory Animal Handling Certification and experience working with rodents.

Why join NoctuRNA Therapeutics?

- Make a meaningful impact in transforming healthcare through novel RNA-based therapies.
- Work in a highly dynamic, science-driven biotech company
- Opportunities for professional growth and increased responsibility as the company scales
- Full-time indefinite contract and an annual salary according to their skills and experience

Application process:

Please send your CV and a Cover Letter, including the contact details of professional references, to mcorredor@nocturnatx.com, for the attention of Miriam Corredor, by Friday, 30 October 2026.
